

P.E Report 2018-19

Government funding

The Sports Premium Funding the school receives is around £18000 a year. This money must be spent on things that will have an impact in the school and help children with their physical development. We have decided to spend the money in the following ways membership towards NHSSP, updating club and curriculum sports such as table tennis, speed stacks, cricket, football and basketball as well as subsidising some sports club fees.

P.E Curriculum

The P.E curriculum allows children to access the full range of different sports from the following areas net and wall, gym and dance, invasion, striking and fielding and outdoor and adventurous activities. Over the children's time at Pixmore they will have the opportunity to play and take part in different sports from these areas. You will notice that our curriculum map is on our website as well as other important documents as this is now a government requirement.

Sports Clubs

We offer a large range of different sports clubs during school hours before school, lunch time and after school. Throughout the year the clubs change due to different competitions and seasonal sports. Some clubs support the school teams but most of our clubs provide opportunity for children. These clubs are important to the children at Pixmore as they love sport and enjoy the clubs we run which is proven by the amount of children we have taking part in the clubs.

P.E equipment and resources

As a school we are very lucky to have lots of good P.E resources which we have built up over the last few years. The school has different interactive resource to help teach most sports such as help cards, question cards and video clips. Plus a great outdoor area playing fields and playgrounds to support forest schools and orienteering.

Assessment

Assessment tracks their progress in all areas of P.E and helps put children forward for clubs and school teams. Assessment in P.E is in line with the new curriculum and what I would expect the children to be doing/achieving in PE at Pixmore. This is an easier way to keep P.E in line with other subjects and help me identify children's stretches and weaknesses.

Events

The school enters every sporting event available and have now become a host school. This means we host local schools at different sports, this adds more fixtures to the calendar but it also allows more children to represent the school. Over the last few years we have been very successful in the local tournaments making Pixmore a school known in the local area as a "sporty school" (which make me very proud)

Already this term we have sent teams to the following events:

Football host nights for A, B and C teams

We have hosted The Pix Cup

The Letchworth and Baldock Football League Cup

Played in netball host nights A and B teams

Entered the local netball tournament

Olympic legacy event

Girl's football host nights A and B teams

Tag Rugby festival A and B teams

Rapid fire cricket competition

Basketball competition

Boccia competition

By sending teams to these types of events we have increase the amount of children taking part in sport but the children have been confident (at their level) and excited to represent the school as it is a real honour to represent Pixmore.

Adam Willard

P.E co-ordinator
